

### **AMENDMENTS TO THE SPECIFICATION**

Please insert the reference numeral "53" in the second line of paragraph 0028 after the words "attachment points" and replace Paragraph [0007] with the following paragraph:

P1 [0007] Specifically, in combination with a power port assembly providing power to portable electronic devices while in transit on a mobile platform (e.g., commercial aircraft), an interface of the present invention includes a cover adapted for connection to the power port assembly and configured for attachment thereto within the existing structure of the power port assembly. The cover has provided therewith a plurality of connectors adapted for connection to portable electronic devices. Existing bracketing and attachment points (e.g. mounting holes) are used to connect the replacement cover to the power port assembly. Further, the cover is adapted for connection to existing connection members (e.g. fasteners) of the power port assembly.

### **NO NEW MATTER HAS BEEN ADDED**

Support for the new paragraph may be found in, at least, the original paragraph 0007 and at page 10, paragraph [0028], first sentence. Accordingly no new matter has been added.
